Take a massive leap forward comfortably

An ecosystem of smart shading products designed to simplify your customers' lives

somfy®

somfy

Introducing

our new comfort-driven ecosystem, built for everyone

Some would say our business is motorization and automation. We would say it's comfort. Ever since we pioneered the industry over 50 years ago, our goal has been to give people added convenience in their lives. But to be truly comfort-driven, we must extend this mission even further.

Comfort is quality and ease in production, so the manufacturers you buy from can build high-quality window coverings faster and to your exact specifications.

Comfort is confidence that every installation you do can be done in less time and will be done right the first time.

Comfort is the peace of mind you give to homeowners that their smart shades, blinds, and draperies will work seamlessly with any future change in smart home tech.

With **Somfy Smart Shading** now on Zigbee® 3.0, comfort is the name of the game — from manufacturer to installer to end user.

Somfy means comfort.

New
and streamlined

Meet our smart shading ecosystem featuring Zigbee 3.0 technology:

Somfy motors
fitting most styles of interior shades, blinds, or draperies.

TaHoma® pro app
simpler programming, motor setting, and installation.

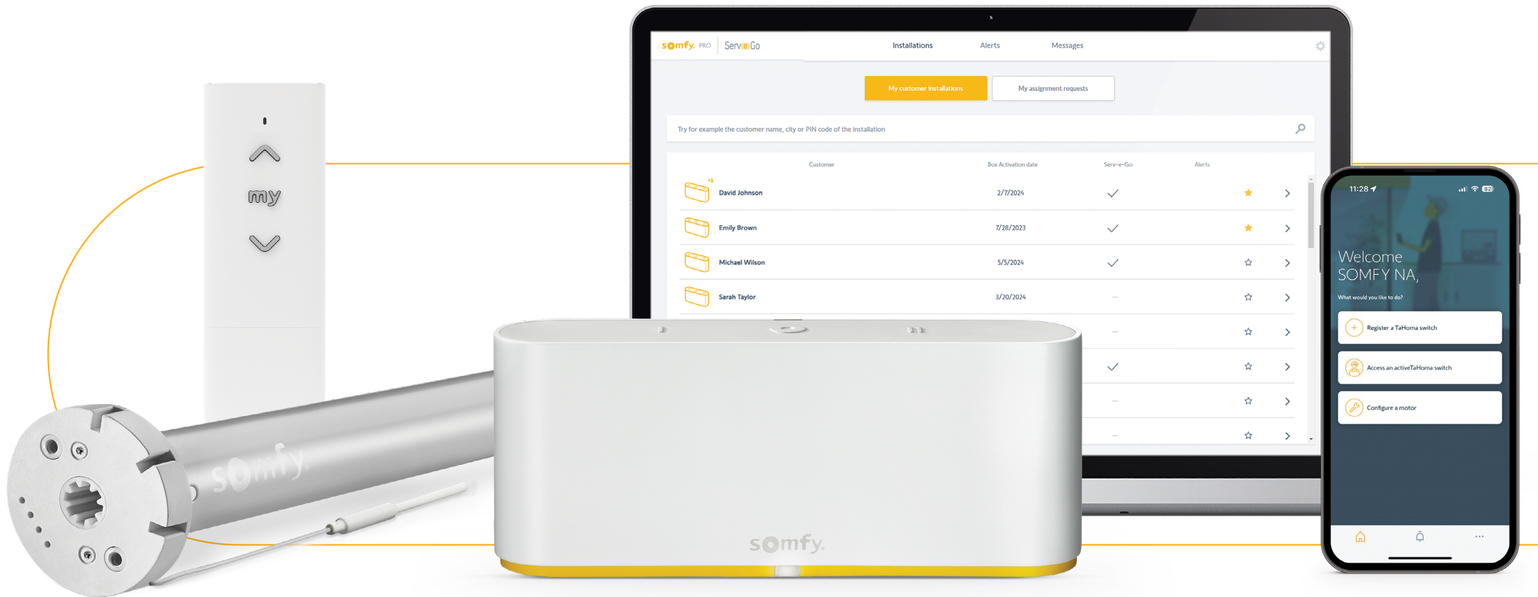

TaHoma® switch
smart hub for a solid, reliable network.

TaHoma® by Somfy app
giving homeowners the ability to connect, control, and customize.

Ysia remote
direct control of window coverings at the touch of a button.

Serv-e-Go®
a web app for dealers to elevate after-sales support.

Somfy makes smart things

connected, adaptive, and secure

Our latest state-of-the-art motors run on Zigbee, an open standard for communication and connectivity in the home. Zigbee gives our motors greater functionality and ensures that products will integrate seamlessly.

Simple connectivity for seamless installation

Somfy motors also feature Bluetooth, allowing for a direct connection with or without Wi-Fi for programming installations.

End-to-end reliability for your bottom line

From installation to integrating more hardware down the line, Somfy keeps you moving smoothly with the most forward-looking tech to stay open to new smart home innovations.

Bi-directional communication for user comfort

Help your customers feel in control of their space with real-time status of all their window coverings and precise controls for their preferred position.

Streamlined solutions

Our pro tools make installation hassle-free no matter your clients' home setup

The TaHoma pro app makes it much easier and less time-consuming to set up the network and configure it with or without a hub.

Pro tools make it easy to sell, install, and service.

PRO

GET IT ON Google Play

SCAN ME

TaHoma switch Programming Process

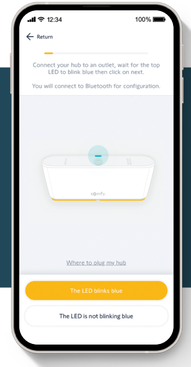

1

Scan a QR code for a direct connection to change individual blind settings in a snap.

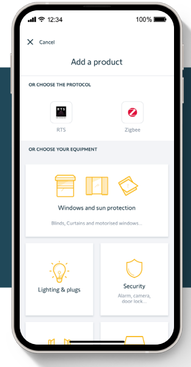

2

Register and set up the TaHoma switch with or without an internet connection.

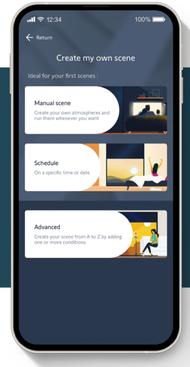

3

Add devices that include shades, remotes and smart plugs.

4

Create scenes and schedules to suit your customers' needs.

Mobile screens are for illustrative purposes only.

Installations made simple

Connect seamlessly even without a hub

The TaHoma pro app allows for easy setup even without a hub solution. Simply connect to your motor and pair it with a remote.

More options mean more ways to sell, install, and create happy customers.

SmartThings | SONOS | URC

TaHoma switch

The central hub connects and controls the smart home ecosystem — powering the TaHoma by Somfy app for homeowners and giving them complete control, no matter their preferred smart home ecosystem.

TaHoma by Somfy app

A single interface connects the homeowner to their smart home, giving them full control over their window coverings and lighting — with real-time status views of every motor.

Somfy motors

Every Zigbee motor — wired or wireless — offers precise positioning adjustments and easily configured settings directly from the TaHoma by Somfy app.

**Apple Home compatibility is only supported for TaHoma switch used with select Zigbee technology motors. See motor specifications for details.*

Make the move

About Somfy®

For over 50 years, Somfy has been pioneering innovative motorization and automated solutions for window coverings and exterior shading products. With comfort, ease of use, security, and sustainability in mind, our seamless and connected solutions are designed to help people make the move to living spaces impactful for humans and with a reduced impact on nature.
