Take a massive leap forward

comfortably

A complete smart shading solution that perfectly optimizes
the natural light and comfort in your home at all times.

somfy

Introducing

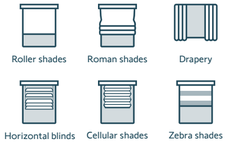

New comfort and convenience for your home

Somfy's smart shading solutions make your home a haven of soft, natural light for your personalized comfort.

Motorized window coverings are a step towards making your life at home more comfortable and convenient.
By adding a TaHoma switch, you can control your automatic shades without even having to think about it.

Brighten
your home interior

With solutions for most types of shades, blinds, and curtains, Somfy motorization can be combined with the window covering of your choice.

and more...

Create
a peaceful environment

Somfy's motorized window coverings operate quietly, ensuring a peaceful environment in each room. Automated window coverings are discreet, can improve your privacy, and eliminate cords to provide a child-safe and pet-friendly solution.

Adjust
according to your needs

Getting dark outside?
With a click of a button you can automatically close your motorized shades to protect your privacy.

Away from home?
Simulate your presence by coordinating your shades and lighting to safeguard your home.

Need a bit more light?
Schedule your motorized window coverings to open just the right amount. You can adjust them effortlessly and automatically anytime you desire.

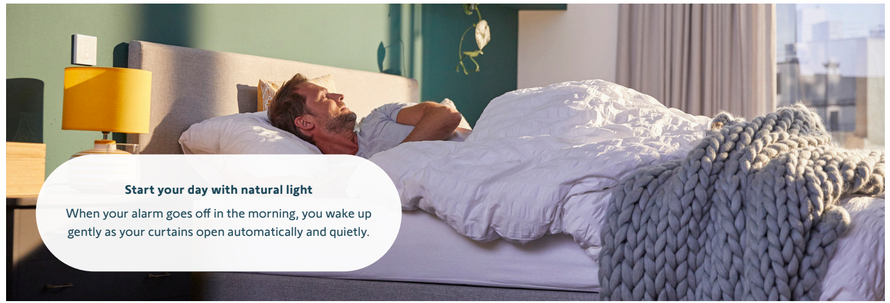

Evolve
your home at your own pace

Somfy products are scalable, allowing you to tailor your experience, add new devices, and manage your indoor and outdoor spaces to match your preferences and lifestyle.

Light up your everyday life

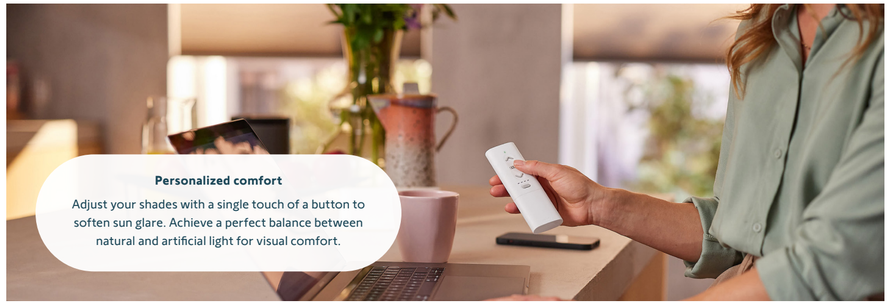

Connected window coverings relieve you from repetitive tasks throughout your day

As you wake in the morning, enjoy an afternoon at home, or unwind with your family in the evening - your motorized shades and curtains help you balance the light, and keep your family moments cozy — all without you having to think about it.

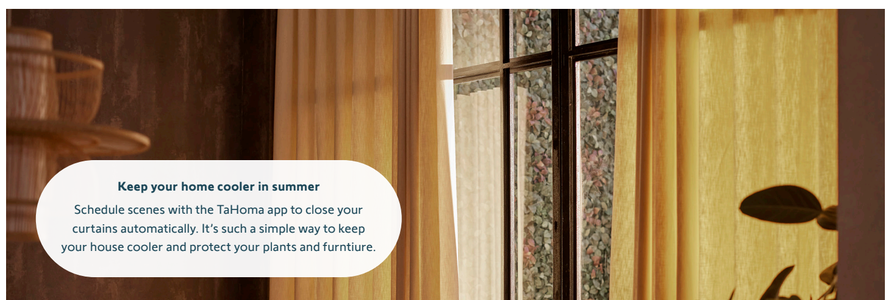

Start your day with natural light

When your alarm goes off in the morning, you wake up gently as your curtains open automatically and quietly.

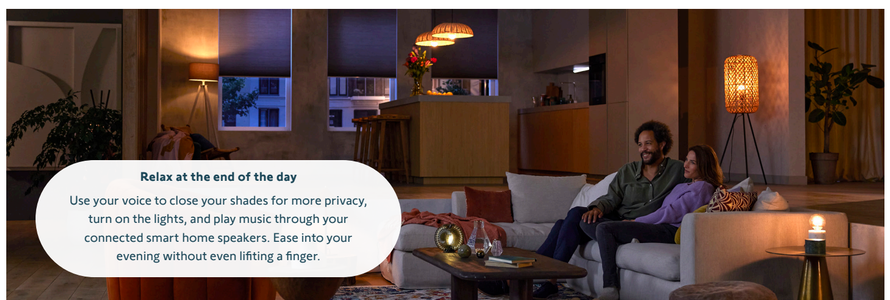

Personalized comfort

Adjust your shades with a single touch of a button to soften sun glare. Achieve a perfect balance between natural and artificial light for visual comfort.

Keep your home cooler in summer

Schedule scenes with the TaHoma app to close your curtains automatically. It's such a simple way to keep your house cooler and protect your plants and furntiure.

Relax at the end of the day

Use your voice to close your shades for more privacy, turn on the lights, and play music through your connected smart home speakers. Ease into your evening without even lifting a finger.

Your comfort-driven ecosystem

Control your home using your preferred method and seamlessly connect with other devices

Convenience means having control at your fingertips. By centralizing, controlling, and automating your shades, blinds, and curtains, Somfy's smart shading solution adapts to all your needs.

RTI | SAVANT | SmartThings | SONOS | URC

You have multiple ways to control your Somfy-powered window coverings:

TaHoma switch

Somfy's smart control that centralizes and connects your complete smart home ecosystem.

TaHoma switch features two technologies:

zigbee + RTS

It is compatible with many **Somfy products and major smart home brands.** Create your ideal home environment, at your own pace, thanks to a complementary and scalable home solution.

Voice control

Use the compatible voice control features of third-party smart home systems such as Apple Home*, Amazon Alexa, and Google Home. Ask, and it shall be done!

Ysia remote control

Ysia's sleek design and intuitive use make it easy to directly control your window coverings at the touch of a button. Choose between 1 and 5 channel versions to control your space as precisely as possible.

** More applications available, this is not an inclusive list.*

***Apple Home compatibility is only supported for TaHoma switch used with select Zigbee technology motors. See motor specifications for details.*

Smart control

Comfort of technology that simply works

The TaHoma® by Somfy app is your simple interface for controlling your smart home devices at anytime and from anywhere. Check your connected window coverings for the real-time status of each device. Program scenes to run without you even needing to think about it.
